Notes to the unaudited interim condensed consolidated financial statements

(All amounts in millions of Rubles unless otherwise stated)

1. General information

Public Joint Stock Company “Vimpel-Communications” (PJSC “VimpelCom”, together with its consolidated subsidiaries referred to as the “Group”, “VimpelCom”, the “Company” or “we”) was registered in the Russian Federation (“Russia”) on 15 September 1992 as a joint stock company of the closed type, re-registered as a joint stock company of the open type on 28 July 1993 and began full-scale commercial operations in June 1994. The Company was re-registered as an Open Joint Stock Company on 28 March 1995. The Company was re-registered as a Public Joint Stock Company on 19 June 2015.

The registered office of PJSC “VimpelCom” is located at Russian Federation, 127083, Moscow, Ulitsa 8-Marta, Dom 10, Building 14.

The interim condensed consolidated financial statements are presented in Russian Rubles (“RUR”). In these notes, Russian Ruble amounts are presented in millions unless otherwise indicated.

VimpelCom earns revenue by providing voice, data and other telecommunication services through a range of wireless, fixed and broadband internet services, as well as selling equipment and accessories. As of 30 June 2015, the Company operated telecommunications services in Russia, Kazakhstan, Armenia, Uzbekistan, Georgia, Kyrgyzstan and Laos primarily under the “Beeline” brand name.

The interim condensed consolidated financial statements of the Company as of 30 June 2015 and for the three and six months ended 30 June 2015 were authorized for issue by the General Director on 28 August 2015.

2. Basis of preparation of the interim condensed consolidated financial statements

Basis of preparation

The interim condensed consolidated financial statements have been prepared in accordance with International Accounting Standard (“IAS”) 34 *Interim Financial Reporting*.

The interim condensed consolidated financial statements do not include all the information and disclosures required for a complete set of consolidated financial statements and should be read in conjunction with the Group’s annual consolidated financial statements for the year ended 31 December 2014 prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”).

PJSC “VimpelCom” maintains its accounting records and prepares its financial statements in accordance with the Regulations on Accounting, Reporting and tax legislation in the Russian Federation. PJSC “VimpelCom”’s subsidiaries outside the Russian Federation maintain their accounting records in accordance with local regulations and tax legislation. The accompanying consolidated financial statements have been prepared from these accounting records and adjusted as necessary in order to comply with IFRS.

The interim condensed consolidated financial statements have been prepared on a historical cost basis, unless disclosed otherwise.

The preparation of these interim condensed consolidated financial statements has required management to apply accounting policies and methodologies based on complex and subjective judgments, estimates based on past experience and assumptions determined to be reasonable and realistic based on the related circumstances. The use of these estimates and assumptions affects the amounts reported in the interim consolidated statement of financial position, income statement, statements of comprehensive income, statement of changes in equity, cash flows as well as the notes to financial statements. The final amounts for items for which estimates and assumptions were made in the interim condensed consolidated financial statements may differ from those reported in these statements due to the uncertainties that characterize the assumptions and conditions on which the estimates are based. The results for the interim period are not necessarily indicative of results for the full year.

Public Joint Stock Company “Vimpel-Communications”
(a wholly-owned subsidiary of VimpelCom Ltd.)

Notes to the unaudited interim condensed consolidated financial statements (continued)

(All amounts in millions of Rubles unless otherwise stated)

2. Basis of preparation of the interim condensed consolidated financial statements (continued)

Basis of consolidation

The interim condensed consolidated financial statements comprise the financial statements of PJSC “VimpelCom” and its subsidiaries.

Subsidiaries are all entities (including structured entities) over which PJSC “VimpelCom” has control. PJSC “VimpelCom” controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to PJSC “VimpelCom”. They are deconsolidated from the date that control ceases.

Inter-company transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated. When necessary, amounts reported by subsidiaries have been adjusted to conform with the group’s accounting policies.

Transactions with non-controlling interests that do not result in loss of control are accounted for as equity transactions – that is, as transactions with the owners in their capacity as owners. The difference between fair value of any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary is recorded in equity. Gains or losses on disposals to non-controlling interests are also recorded in equity.

New accounting pronouncements adopted by the Group

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group’s annual consolidated financial statements for the year ended 31 December 2014. The Company did not adopt any new standards and interpretations effective as of 1 January 2015 that would have any impact on the financial position, performance or disclosures in the interim financial statements as well as in the annual financial statements except for the amendment to IFRS 8 Operating segments introduced by 2010-2012 IFRS annual improvements cycle effective for annual periods beginning on or after 1 July 2014 and requiring to disclose judgments about aggregation of operating segments into reportable segments.

3. Seasonality of operations

Due to seasonality of the Group’s operations, higher revenues and operating profits are usually expected in the third quarter of the year and the month of December. These expectations are mainly attributable to the increased demand for telecommunication services during the peak holiday seasons from private customers. This information is provided to allow for a proper assessment of the results, however management has concluded that this does not constitute a “highly seasonal” business as described by IAS 34 *Interim Financial Reporting*.

4. Significant transactions

In May 2015, VimpelCom’s indirect ownership interests in Kazakhstan and Kyrgyzstan subsidiaries were changed from 71.5% to 75% in KaR-Tel LLP and from 71.5% to 50.1% in Sky Mobile LLC in accordance with the new shareholder agreement. Concurrently, the ownership in KaR-Tel LLP and Sky Mobile LLC was moved from Cyprus to Swiss holding companies and the related dividend mandates, as well as the put option which was held by the non-controlling interest holder and call options (value nil), held by the Company, have been cancelled. The changes in the ownership structure as well as derecognition of the put option liability of RUR 14,016 were recorded directly in equity as a transaction between the shareholders acting in their capacity as the owners of the company and resulted in a net decrease to parent equity of RUR 697 and increase to non-controlling interest of RUR 15,294. The reversal of deferred tax liabilities of RUR 4,853 resulted in a corresponding decrease of income tax expense for the period related to withholding taxes on distributed and future dividends. No cash consideration was exchanged in connection with the above restructuring and the Company will continue to control Kar-Tel LLP and Sky Mobile LLC subsequent to the transaction.

5. Segment information

Management analyzes the Company’s operating segments separately because of different economic environments and stages of development in different geographical areas, requiring different investment and marketing strategies. Management does not analyze assets or liabilities by reportable segments. The segment data for acquired operations are reflected herein from the date of their respective acquisition.

Management evaluates the performance of the Company’s segments on a regular basis, primarily based on earnings before interest (both finance income and finance costs), income tax, depreciation, amortization, impairment loss, loss on disposals of non-current assets, net foreign exchange gain/(loss), other non-operating losses and share of profit/(loss) of associates and joint ventures (“EBITDA”).

Starting 1 January 2015, management decided to present Kazakhstan operating unit as separate segment to enhance understanding of the business, and better reflect on the actual structure of the Group. Therefore, the previous reportable segments were disaggregated into additional operating segments, whereby Laos has been split out from what was All Other, and the old CIS segment is now split into Kazakhstan and Eurasia, including Uzbekistan, Armenia, Georgia, Kyrgyzstan and Laos. The latter were aggregated into Eurasia reportable segment as they display similar economic characteristics engaging in the provision of similar telecommunication services to similar customers in broadly similar emerging markets. The comparative information has been adjusted accordingly. “All other” category includes headquarter expenses and other unallocated adjustments and inter-company eliminations.

Financial information by reportable segment for the three and six months ended 30 June 2015 and 30 June 2014 is presented in the following tables.

Goodwill is tested for impairment annually (at 1 October) and when circumstances indicate the carrying value may be impaired. The impairment test for goodwill is primarily based on fair value less cost of disposal calculations that use a discounted cash flow model. The key assumptions used to determine the recoverable amount for the different cash generating units were disclosed in the annual financial statements for the year ended 31 December 2014.

The Company considers the relationship between its market capitalization and its book value, among other factors, when reviewing for indicators of impairment.

Due to higher weighted average costs of capital for the CGU Armenia, an impairment was concluded in the amount of RUR 1,059. The recoverable amount was determined based on a fair value less costs of disposal calculation using the latest cash flow projections (Level 3 fair value). The Company applied post-tax discount rate of 12.1%.

11. Financial assets and liabilities

There were no significant changes in the financial assets and liabilities in the six month-period ended 30 June 2015, except as described below.

Major treasury events during 2015

On 2 March 2015, OJSC “Sberbank of Russia” informed PJSC “VimpelCom” of an increase in fixed interest rates to between 14.50% and 16.25% with effect from 1 June 2015 in accordance with the terms of the credit facility agreements between PJSC “VimpelCom” and OJSC “Sberbank of Russia”. The increase in interest rates would apply to three loans from OJSC “Sberbank of Russia” with a total principal amount outstanding of RUR 80,274 as of 1 June 2015.

On 5 August PJSC “VimpelCom” and OJSC “Sberbank of Russia” signed the amendments to the Sberbank Facilities to reduce fixed interest rate to between 8.75% and 14.0% depending on certain conditions. The decrease in interest rates would apply to three loans from OJSC “Sberbank of Russia” with a total principal amount outstanding of RUR 77,497 as of 1 August 2015. By the same amendments, the total assets covenant was removed from the loan documentation. This was driven by repayment of intercompany loans to PJSC VimpelCom in Q1 2015 and Q2 2015, which in turn used funds received from the other VimpelCom Group entities to repay certain portion of its external debt obligations. This operation had the overall effect of reducing PJSC “VimpelCom”’s total asset levels. For IFRS purposes, a preliminary calculation of the total assets covenant resulted in the minimum total asset threshold not being met as of 30 June 2015. As a result, a RUB 46,254 portion of the amounts outstanding under the Sberbank Facilities has been re-classified as short-term liabilities as of 30 June 2015. Any potential breach of the total assets covenant as of 30 June 2015 was avoided by the signing of such amendments.

On 2 March 2015, VimpelCom Amsterdam B.V. announced that it commenced a cash tender offer for up to USD 2,100 million aggregate principal amount of the outstanding U.S. dollar notes issued by VimpelCom Holdings B.V. and guaranteed by PJSC “VimpelCom” and loan participation notes issued by VIP Finance Ireland Limited and UBS (Luxembourg) S.A. (Eurobonds) for the sole purpose of funding loans to PJSC “VimpelCom”. The total outstanding amount of these bonds was USD 6,700 million (USD 3,100 million of which accounts for PJSC “VimpelCom”). The tender offer expired on 30 March 2015 and settlement took place on 2 April 2015. On 2 April 2015, PJSC “VimpelCom” bought the notes issued by VIP Finance Ireland Limited and UBS (Luxembourg) S.A. in the total principal amount of USD 1,420 million from VimpelCom Amsterdam B.V. for further cancellation. After that the outstanding principal amount of debt under the 6.493%-9.125% Eurobonds due in 2016-2021 was USD 1,680 million as of 2 April 2015 (the equivalent of RUR 98,034 as of 2 April 2015 at the exchange rate provided by the Central Bank of Russia).

The carrying value of the bonds subject to the purchase was adjusted on 31 March 2015 upon closing of the tender to reflect on the expected additional cash flows of the bonds stemming from the agreed premiums amounting to USD 33.6 million (the equivalent of RUR 2,027 at the average exchange rate for March, 2015 provided by the Central Bank of Russia). This adjustment to the carrying value was recorded in the “other non-operating losses, net” as part of the “early redemption” account to reflect on the nature of the adjustment. The unamortized debt issuance costs were released to the income statement at the date of the closing due significantly reduced expected remaining time of the amortization period. The total amount of the unamortized fees to be released amounted to USD 6 million (the equivalent of RUR 362 at the average exchange rate for March, 2015 provided by the Central Bank of Russia). Since the release of the debt issuance costs was part of the tender, it was recorded as part of “other non-operating losses, net” in the account “early redemption”.

On 5 March 2015, PJSC “VimpelCom” announced a new coupon rate of 10% per annum for the next four coupon periods on Ruble bonds in the total principal amount of RUR 35,000, maturing in March 2022 and subject to an investor put option exercisable in March 2015. As a result of put option exercised in March 2015 PJSC “VimpelCom” bought Ruble bonds in total principal amount of RUR 34,783. After that the outstanding principal amount of debt became RUR 217.

11. Financial assets and liabilities (continued)

Major treasury events during 2015 (continued)

In March 2015, KaR-Tel LLP entered into an agreement to provide loans to Aureglia Limited in the amount of USD 100 million with a 2.41% interest rate for a period of 175 days. On 10 March 2015, KaR-Tel LLP provided loans under this agreement in the amount of USD 100 million (the equivalent of RUR 5,999 as of 10 March 2015 at the exchange rate provided by the Central Bank of Russia). The guarantor under the agreement with Aureglia Limited is the indirect non-controlling shareholder of KaR-Tel LLP. On 24 June 2015 the full outstanding amount of this loan was early repaid.

On 4 May 2015, KaR-Tel LLP entered into a KZT 8,300 million (the equivalent of RUR 2,284 as of 4 May 2015 at the exchange rate provided by the Central Bank of Russia) term loan facility agreement with Kazkommertsbank JSC as lender, bearing interest at a rate of 19%. KaR-Tel LLP has provided a cash deposit in the amount of USD 50 million (the equivalent of RUR 2,557 as of 4 May 2015 at the exchange rate provided by the Central Bank of Russia) as a security. The loan enables KaR-Tel LLP to dispose on higher liquidity in local currency. The facility has a total tenor of one year.

Significant changes in financial assets and liabilities also relate to the loans received from related parties and the amount of interest due on them, loans granted to related parties and the amount of interest due on them as further described in Note 14.

15. Commitments, contingencies and uncertainties

Investigation of the operations in Uzbekistan

The United States Securities and Exchange Commission (“SEC”), the United States Department of Justice (“DOJ”) and the Dutch Public Prosecution Service (“OM”) are conducting investigations related to VimpelCom Ltd. and its subsidiaries (“VimpelCom Ltd. Group”) including the Company, which have been focused primarily on VimpelCom Ltd. Group's prior dealings with Takilant Ltd. (“Takilant”).

In June 2007, Takilant purchased from the Company a 7% interest in the Company's business in Uzbekistan for USD 20 million (the equivalent of RUR 516 as of 30 June 2007 at the exchange rate provided by the Central Bank of Russia) and entered into a shareholders agreement with the Company. In September 2009, Takilant exercised its option to put its 7% interest to the Company for USD 57.5 million (the equivalent of RUR 1,730 as of 30 September 2009 at the exchange rate provided by the Central Bank of Russia), the amount specified in the shareholders agreement. In addition, the Company had agreements with Takilant relating to the acquisition of frequency spectrum (including with respect to 3G and LTE) and channels in Uzbekistan pursuant to which the Company paid Takilant an aggregate of USD 57 million.

It has also been reported in the press that Takilant is currently being investigated in Sweden and Switzerland on allegations that it and certain persons associated with it have committed acts of bribery and money-laundering connected with their activities in Uzbekistan, and also that Takilant is being investigated in the Netherlands and perhaps other jurisdictions. These investigations may, in part, involve VimpelCom Ltd. Group.

As a result of concerns arising from press reports regarding Takilant, VimpelCom Ltd. commenced a review with respect to its operations in Uzbekistan, including its relations with Takilant, and in 2013 VimpelCom Ltd. retained an external counsel with expertise relating to the U.S. Foreign Corrupt Practices Act (“FCPA”) and other anti-corruption laws and regulations to conduct such investigation.

Following notice of the investigations by the SEC, DOJ and OM, VimpelCom Ltd. established a Special Committee of its Supervisory Board in March 2014 to oversee the internal investigation being conducted by its external counsel and VimpelCom Ltd. Group's response to the inquiries by various authorities. The Special Committee consists of directors who qualify as independent for purposes of Rule 10A-3 under the U.S. Securities Exchange Act of 1934, as amended. The investigation being conducted by VimpelCom Ltd.'s external counsel has been focused primarily on VimpelCom Ltd.'s Uzbekistan operations, including relations with Takilant, and whether there was any conduct in VimpelCom Ltd. Group's operations in Uzbekistan that may have violated the anti-bribery provisions of the FCPA, the FCPA's books and records and internal controls provisions, applicable local laws and/or VimpelCom Ltd. Group's own internal policies. The investigation is also reviewing VimpelCom Ltd. Group's operations in additional countries.

15. Commitments, contingencies and uncertainties (continued)

Investigation of the operations in Uzbekistan (continued)

On 29 June 2015, the DOJ filed a civil complaint in the Southern District Court of New York, seeking the forfeiture of property, currently held by others, located in Belgium, Ireland, and Luxembourg that it claims was derived in violation of US law. VimpelCom Ltd. Group is not a defendant in this action. Such a forfeiture action indicates, however, the DOJ's position that certain conduct by the Company in or relating to Uzbekistan constituted a violation of the FCPA. On 10 July 2015, a federal judge signed warrant orders allowing the DOJ to proceed with forfeiture actions as described in the complaint. VimpelCom Ltd. Group will continue to monitor this proceeding.

As of and for the six-month period ended 30 June 2015, the Company reported revenues and total assets from its Uzbekistan operations of RUR 19,584 and RUR 58,406 respectively, which equals 10.8% and 9.5% of the Company's revenues and total assets, respectively.

VimpelCom Ltd. Group expects to continue incurring costs related to the investigations, primarily professional fees and expenses, which may be significant. These costs relate to responding to requests for information and testimony in connection with the investigations and in conducting VimpelCom Ltd. Group's internal investigation. VimpelCom Ltd. Group cannot predict at this time the ultimate amount of all such costs, which costs will be expensed as incurred.

The SEC, DOJ and Dutch investigations, as well as VimpelCom Ltd. Group's own investigations, are continuing, and VimpelCom Ltd. Group has cooperated, and continues to cooperate, with the authorities in these investigations. VimpelCom Ltd. is also exploring the prospect of resolving its potential liabilities arising from the facts established in the investigations. VimpelCom Ltd. and the Company are unable to predict the duration, scope or results of the ongoing investigations or how the results of these investigations or any resolutions may impact VimpelCom Ltd.'s or the Company's business, results of operations, financial condition or the assessment of VimpelCom Ltd.'s or the Company's internal controls. Further, there can be no assurance that such investigations will not be broader in scope than they currently appear, or that new investigations will not be commenced in these or other jurisdictions, or that there will not be litigation commenced against VimpelCom Ltd. or the Company.

One or more enforcement actions could be instituted in respect of the matters that are the subject of some or all of the investigations. The DOJ and SEC have a broad range of civil and criminal sanctions under the FCPA and other laws and regulations, including, but not limited to, fines, penalties, and disgorgement of profits. The OM and enforcement authorities in other jurisdictions also have a range of sanctions under the relevant laws and regulations. The imposition of any of these sanctions or remedial measures could have a material adverse effect on VimpelCom Ltd.'s or the Company's results of operations or financial condition. At this time, no provision for any such fines, penalties, or disgorgements has been recorded, as there is no legal or constructive present obligation. Additionally, management cannot make a reliable estimate of any future potential losses arising from this matter.

16. Events after the reporting period

On 17 July 2015 the subsidiary of the Company VimpelCom Kazakhstan Holding AG paid dividends to non-controlling interest in the amount of USD 104.28 million (the equivalent of RUR 5,939 as of 17 July 2015 at the exchange rate provided by the Central Bank of Russia).

Since 30 June 2015, several currencies demonstrated high volatility. In particular, between 30 June 2015 and 28 August 2015, the Russian ruble depreciated against the U.S. dollar and the Euro by approximately 21% and 24%, respectively, Kazakhstan tenge depreciated against the U.S. dollar and the Euro by approximately 30% and 32%. RUR and KZT devaluation against major foreign currencies (USD, EUR) may give additional impact on the financial position or performance of the Group. Development of telecommunications market may show negative trends during 2015 due to the decrease of purchasing power of the population.
