Review Report of Independent Auditors

The Board of Directors and Shareholders of OJSC Vimpel-Communications

We have reviewed the interim condensed consolidated financial statements of Open Joint Stock Company Vimpel-Communications (a wholly-owned subsidiary of VimpelCom Ltd.) and its subsidiaries (hereinafter collectively referred to as "VimpelCom"), which comprise the interim consolidated statement of financial position as of 31 March 2014, and the related interim consolidated income statements, statements of comprehensive income, changes in equity, and cash flows for the three-month periods ended 31 March 2014 and 2013.

Management is responsible for the preparation and fair presentation of the interim condensed consolidated financial information in conformity with International Financial Reporting Standard IAS 34, Interim Financial Reporting; this includes the design, implementation, and maintenance of internal control sufficient to provide a reasonable basis for the preparation and fair presentation of interim condensed consolidated financial information in conformity with IAS 34, Interim Financial Reporting.

Our responsibility is to conduct our review in accordance with auditing standards generally accepted in the United States applicable to reviews of interim financial information. A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the United States, the objective of which is the expression of an opinion regarding the financial information. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the interim condensed consolidated financial information referred to above for it to be in conformity with IAS 34, Interim Financial Reporting.

We have previously audited, in accordance with auditing standards generally accepted in the United States, the consolidated statement of financial position of VimpelCom as of 31 December 2013, and the related consolidated statements of income, comprehensive income and changes in equity, and cash flows for the year then ended (not presented herein); and we expressed an unmodified audit opinion on those audited consolidated financial statements in our report dated 23 May 2014. As described in Note 2 to VimpelCom's unaudited interim condensed consolidated financial statements, on 1 January 2014 VimpelCom adopted amendments to International Financial Reporting Standard IAS 32 Financial Instruments: Presentation - Offsetting Financial Assets and Financial Liabilities, on a retrospective basis resulting in a revision of the 31 December 2013 consolidated statement of financial position. We have not audited or reported on the revised consolidated statement of financial position reflecting the adoption of the amendments to IAS 32, Financial Instruments: Presentation - Offsetting Financial Assets and Financial Liabilities.

1. General information

Open Joint Stock Company "Vimpel-Communications" (**OJSC "VimpelCom"**, together with its subsidiaries referred to as the "**Group**", "**VimpelCom**", the "**Company**" or "**we**") was registered in the Russian Federation ("**Russia**") on 15 September 1992 as a closed joint stock company, re-registered as an open joint stock company on 28 July 1993 and began full-scale commercial operations in June 1994.

The registered office of VimpelCom is located at Russian Federation, 127083, Moscow, Ulitsa 8-Marta, Dom 10, Building 14.

The interim condensed consolidated financial statements are presented in United States dollars ("**US dollars**" or "**US\$**"), as this is the functional and reporting currency of our controlling shareholder VimpelCom Ltd. In these notes United States dollar amounts are presented in thousands, all values are rounded to the nearest thousand (USD thousand) unless otherwise indicated.

VimpelCom earns revenues by providing voice, data and other telecommunication services through a range of wireless, fixed and broadband internet services, as well as selling related equipment and accessories. As of 31 March 2014, the Company operated telecommunications services in Russia, Kazakhstan, Ukraine, Armenia, Uzbekistan, Georgia, Kyrgyzstan and Laos primarily under the "Beeline" brand name.

The unaudited interim condensed consolidated financial statements of the Company for the three months ended 31 March 2014 were authorized for issue by General Director on 6 June 2014.

2. Basis of the interim condensed consolidated financial statements

Basis of preparation

The interim condensed consolidated financial statements for the three months ended 31 March 2014 have been prepared in accordance with International Accounting Standard ("**IAS**") 34 *Interim Financial Reporting*.

The interim condensed consolidated financial statements do not include all the information and disclosures required for a complete set of consolidated financial statements and should be read in conjunction with the Group's annual consolidated financial statements for the year ended 31 December 2013 prepared in accordance with International Financial Reporting Standards ("**IFRS**") as issued by the International Accounting Standards Board ("**IASB**").

VimpelCom maintains its accounting records and prepares its financial statements in accordance with the Regulations on Accounting, Reporting and tax legislation in the Russian Federation. VimpelCom's subsidiaries outside the Russian Federation maintain their accounting records in accordance with local regulations and tax legislation. The accompanying interim consolidated financial statements have been prepared from these accounting records and adjusted as necessary in order to comply with IFRS.

2. Basis of the interim condensed consolidated financial statements (continued)

Basis of preparation (continued)

The interim condensed consolidated financial statements have been prepared on a historical cost basis, unless disclosed otherwise.

The preparation of these interim condensed consolidated financial statements required management to apply accounting policies and methodologies based on complex and subjective judgments, estimates based on past experience and assumptions determined to be reasonable and realistic based on the related circumstances. The use of these estimates and assumptions affects the amounts reported in the statement of financial position and the income statement as well as the notes. The final amounts for items for which estimates and assumptions are made in these interim condensed consolidated financial statements may differ from those reported in these statements due to the uncertainties that characterize the assumptions and conditions on which the estimates are based. The results for the interim period are not necessarily indicative of results for the full year.

Basis of consolidation

The interim condensed consolidated financial statements comprise the financial statements of the Company and its subsidiaries as of and for the three month periods ended 31 March 2014. Subsidiaries are fully consolidated from the date of acquisition, being the date on which the Company obtains control, and continue to be consolidated until the date when such control ceases.

Intercompany accounts and transactions within the Group have been eliminated. Non-controlling interests are reported in the interim condensed consolidated statement of financial position as a separate component of equity. Non-controlling interests represent the equity in subsidiaries not attributable, directly or indirectly, to the owners of the parent.

New standards, interpretations and amendments adopted by the Group

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2013, except for the adoption of new standards and interpretations effective as of 1 January 2014.

The Group has applied, for the first time, the amendments to IAS 32 *Offsetting Financial Assets and Financial Liabilities*. These amendments permit financial assets and liabilities to be offset against each other for balance sheet presentation only where a currently existing, legally enforceable, unconditional right of offset applies to all counterparties of the financial instruments in all situations, including both normal operations and insolvency. The amendments also clarify the application of the IAS 32 offsetting criteria to settlement systems (such as central clearing house systems) which apply gross settlement mechanisms that are not simultaneous. An entity shall apply those amendments retrospectively for annual periods beginning on or after 1 January 2014.

Open Joint Stock Company "Vimpel-Communications"
(a wholly-owned subsidiary of VimpelCom Ltd.)

Notes to the unaudited interim condensed consolidated financial statements (continued)

(All amounts in thousands of US dollars unless otherwise stated)

2. Basis of the interim condensed consolidated financial statements (continued)

New standards, interpretations and amendments adopted by the Group (continued)

VimpelCom enters into interconnect contracts with various counterparties that are settled on a net basis in the normal course of business. However, following the Russian legislation net settlement is not possible in the event of bankruptcy of a counterparty. Consequently, the offsetting of the respective financial assets and liabilities relevant for the Russian jurisdiction is not allowed in the light of the amendments to IAS 32. As a result of the retrospective application of the amendments to IAS 32, the outstanding receivables and payables balances under the interconnect contracts included in the 31 December 2013 Statement of financial position presented as a comparative information in these interim condensed consolidated financial statements have been presented on a gross basis leading to the increase of the Trade and other receivables and Trade and other payables by US\$ 130,300. No additional statement of financial position as of 1 January 2013 is presented because the application of the amendments to IAS 32 did not result in a change of equity in any of the prior periods.

Several other new standards and amendments apply for the first time in 2014, i.e. IFRIC 21 *Levies* and IAS 39 *Novation of Derivatives and Continuation of Hedge Accounting – Amendments to IAS 39*. However, they do not impact the annual consolidated financial statements of the Group or the interim condensed consolidated financial statements of the Group.

In 2013, the Company early adopted IAS 36 *Recoverable Amount Disclosures for Non-Financial Assets – Amendments to IAS 36* that become effective for annual periods beginning on or after 1 January 2014. Since the amended/additional disclosures provide useful information as intended by the IASB, the Company decided to early adopt the Standard in 2013. The amendments remove the unintended consequences of IFRS 13 on the disclosures required under IAS 36. In addition, these amendments require disclosure of the recoverable amounts for the assets or CGUs for which impairment loss has been recognized or reversed during the period.

3. Seasonality of operations

Due to seasonality of the Group's operations, higher revenues and operating profits are usually expected in the third quarter of the year and the month of December. These expectations are mainly attributable to the increased demand for telecommunication services during the peak holiday seasons from private customers. This information is provided to allow for a proper assessment of the results, however management has concluded that this does not constitute a "highly seasonal" business as described by IAS 34 *Interim Financial Reporting*.

4. Segment information

Management analyzes the Company's operating segments separately because of different economic environments and stages of development in different geographical areas, requiring different investment and marketing strategies. Management does not analyze assets or liabilities by reportable segment. The segment data for acquired operations are reflected herein from the date of their respective acquisition.

Management evaluates the performance of the Company's segments on a regular basis, primarily based on earnings before interest, tax, depreciation, amortization, impairment loss, loss on disposals of non-current assets, other non-operating losses and shares of profit/(loss) of associates and joint ventures ("**EBITDA**").

5. Income taxes

Current tax is the expected tax expense, payable or receivable on the taxable income or loss for the year or period, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous periods.

Income tax expense consisted of the following for the three months ended 31 March:

	Three months ended 31 March	
	2014	2013
Current income taxes	140,729	179,948
Deferred income taxes	(52,209)	(48,185)
Income tax expense reported in the income statement	88,520	131,763
Effective tax rates	26%	22%

The increase in the effective tax rate ("ETR") for the three months ended 31 March 2014 compared with the ETR for the prior year three months relates to the withholding tax accrued in 2014 for dividends that will be distributed in the foreseeable future. Furthermore, the ETR increased as a result of prior year adjustments due to refileing of tax returns.

6. Property and equipment

During the three months ended 31 March 2014 and 2013 the Company had the following changes in property and equipment:

	Note	Three months ended 31 March	
		2014	2013

Closing net book value as of 31 March		778,805	3,089,719	994,090	3,535,325

Goodwill is tested for impairment annually (at 1 October) and when circumstances indicate the carrying value may be impaired. The Company's impairment test for goodwill is primarily based on value-in-use calculations that use a discounted cash flow model. The key assumptions used to determine the recoverable amount for the different cash generating units were disclosed in the annual financial statements for the year ended 31 December 2013.

There were no indicators of impairment of goodwill during the three months period ended 31 March 2014.

8. Financial assets and liabilities

There were no significant changes in the financial assets and liabilities in the three months period ended 31 March 2014, except as described below.

On 4 February 2014, the Company entered into Subordination Deed to rank the liabilities owed by VimpelCom to each of OJSC Sberbank ("Sberbank Liabilities"), Vimpelcom Amsterdam B.V., Vimpelcom Holdings B.V. and Weather Capital Special Purpose 1 S.A ("Subordinated Liabilities") if an Insolvency Event occurs in respect of the Company. If such Event occurs in respect of the Company, and for so long as such Event continues, the Subordinated Liabilities shall be subordinated in full to the Sberbank Liabilities and the Sberbank Liabilities shall rank in priority to the Subordinated Liabilities.

Significant changes in financial assets and liabilities also relate to the Loans received from related parties and the amount of interest due on them, loans granted to related parties and the amount of interest due on them as further described in Note 12.

8. Financial assets and liabilities (continued)

Fair values (continued)

The fair value of the financial assets and liabilities are included at the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of our publicly traded bonds was estimated based on quoted market prices. The fair value of other loans and borrowings was determined using discounted cash flows under the agreement at the rate applicable for the instruments with similar maturity and risk profile.

Fair value hierarchy

All financial instruments for which fair value is recognized or disclosed are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 – Quoted market prices in an active market (that are unadjusted) for identical assets or liabilities
- Level 2 – Valuation techniques (for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable)
- Level 3 – Valuation techniques (for which the lowest level input that is significant to the fair value measurement is unobservable)

For financial instruments that are recognized at fair value on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period (including interim reporting periods).

Fair value hierarchy (continued)

During the three months period ended 31 March 2014, there were no transfers between Level 1 and Level 2 fair value measurements, and no transfers into or out of Level 3 fair value measurements.

The movement of financial instruments measured at the fair value using unobservable inputs (Level 3) is presented below:

	As of 31 December 2013	Change in fair value reported in earnings	Change in fair value reported in equity	As of 31 March 2014
Financial assets at fair value through profit or loss				
Derivatives over non-controlling interest	34,874	5,856	–	40,730

Total financial liabilities at fair value	204,469	–	31,070	235,539

Description of significant unobservable inputs to valuation:

	Valuation technique	Significant unobservable input	Range	Sensitivity of the input
Derivatives over non-controlling interest (asset)	Black-Scholes option model	Volatility based on peer group	Volatility +/- 10 p. p.	Every p. p. increase in volatility results in US\$ 4,000 higher fair value
Derivatives over non-controlling interest (liability)	Present value of redemption amount	Discount rate	Discount rate +/- 10 p. p.	Every p. p. decrease in discount rate results in US\$ 8,266 higher fair value

Valuation technique

The Company measures the fair value of quoted equity instruments by reference to published price quotations in an active market (Level 1).

The Company measures the fair value of derivatives on a recurring basis, using observable inputs (Level 2), such as LIBOR, EURIBOR and swap curves, basis swap spreads and foreign exchange rates, floating rates with present value techniques.

The Company measures the fair value options over non-controlling interests on a recurring basis, using unobservable inputs (Level 3) such as projected redemption amounts, volatility, fair value of underlying shares using income approach with present value techniques and the Black-Scholes model.

Offsetting arrangements

The Company did not enter into any offsetting arrangements or other related contracts that would impact the Company's financial position or reported performance.
